Advisory Action Before the Filing of an Appeal Brief	Application No.	Applicant(s)
	09/660,563 <i>Kevin Parton Amita Choudhary</i>	SLAUGHTER ET AL. Art Unit 2153

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 3 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. The reply was filed after a final rejection, but prior to filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:
- a) The period for reply expires 3 months from the mailing date of the final rejection.
- b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. The reply was filed after the date of filing a Notice of Appeal, but prior to the date of filing an appeal brief. The Notice of Appeal was filed on 1/25/05. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
- (a) They raise new issues that would require further consideration and/or search (see NOTE below);
- (b) They raise the issue of new matter (see NOTE below);
- (c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
- (d) They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: *See attached*. (See 37 CFR 1.116 and 41.33(a)).

4. The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. Applicant's reply has overcome the following rejection(s): _____.
6. Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. For purposes of appeal, the proposed amendment(s): a) will not be entered, or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: _____.

Claim(s) objected to: _____.

Claim(s) rejected: 1-30.

Claim(s) withdrawn from consideration: _____.

AFFIDAVIT OR OTHER EVIDENCE

8. The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
9. The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
10. The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

REQUEST FOR RECONSIDERATION/OTHER

11. The request for reconsideration has been considered but does NOT place the application in condition for allowance because: _____.

Response to Arguments

Applicant has submitted a response after Final Action containing no claim amendments.

Applicant, however, has submitted remarks regarding Examiner's Final rejection. Applicant argues mainly that Rosenberg (EP0892530) fails to teach a service advertisement including a schema that specifies one or more messages usable to invoke one or more functions of the service.

Examiner respectfully disagrees with Applicant's arguments and presents the following arguments in response.

The Rosenberg patent shows a Directory Agent located at network addressable storage location (col. 7 lines 1-14, fig. 1). Directory Agent responds to client request schema for a service by providing location of Broker service, wherein broker service uses clients request schema to specify a message to invoke functions of the broker service (col. 5 lines 38-42, note the invoking of service replies). The client request message for service is sent to the Broker service indicated by the Directory Agent (col. 5 lines 38-40, note the service of service request type). Client request schema send to broker service specifies messages for invoking one of the servers, A though D. Client request schema is an interface to the broker service.

In regarding claim 1 Rosenberg shows:

A client reading an advertisement from a space (Directory Agent), wherein the space comprises a network-addressable storage location, wherein the advertisement comprises a URI (location of broker service) and a schema (client service request for services hosted by servers A-D), wherein the URI specifies a network address at which a service (broker service) may be

accessed, and wherein a schema specifies one of more messages usable to invoke one or more functions of the service (col. 4 lines 38-42); and

The client sending a first message to the service at the URI (request to broker), wherein the first message is specified in the schema (col. 5 lines 38-40, service or service requests).

Accordingly, in claim 2, Rosenberg shows the service (broker service) sending a second message to the client in response to the client sending the first message to the service, wherein the second message is specified in the schema (col. 6 lines 1-5).

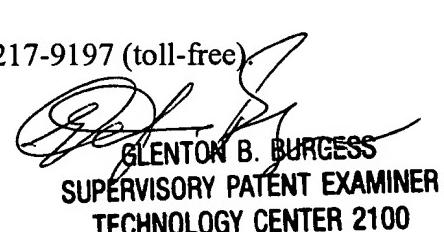

Regarding claim 10, the Directory agent provides a gate for access to the broker service.
